### K-5 Student Acceptable Use Policy

- I agree to respect the school's computer hardware and software. I will treat equipment and software like it was my own. I will report to my teacher if I see someone hurting the hardware or software.

- I agree that I will not use any instant messaging or e-mail software on a school computer.
- I agree I will send, receive, and display only information that is polite, good and respectful to all people and will not bully anyone using the school's computers.
- I agree to respect authors and artists who put their work on the Internet. I will not change work that is not my own. I will not use words, graphics or information from the Internet and present the information as my own work. I will give credit to the authors and artists for their work.
- I agree never to use my whole name, home address, email address or telephone number on the Internet.
- I agree never to sign up for anything over the Internet without my parent/guardian's approval.
- I agree to tell my teacher if I locate a place on the Internet that is inappropriate for school.
- I understand using the network and the Internet at school is a privilege, not a right.
- I understand I will lose my privilege to use the network and the Internet if I break any of these agreements.

The expectation of faculty and administration is that all students and staff in the Norton Public Schools will adhere to the above policies. We look forward to the expanding use of the Internet for learning.
